**MICRO MODEL 008**  
**WIRELESS MICROPHONE**

Micro Communications, through space-age technology, now makes the latest electronic communications equipment available at low prices everyone can afford. Larger brother of our famous Model 007 Miniature Spy Transmitter, the new Model 008 Wireless Microphone meets exacting requirements for sensitivity and clarity of transmission. It is ideal where concealment is desired on one's person; no larger than a "regular" cigarette pack, it operates perfectly from a shirt or jacket pocket.

Model 008 is manufactured to the highest standards, using the latest reliable, maintenance-free solid state circuitry. It will transmit over a distance of several hundred feet to any FM radio (NO SPECIAL RECEIVER NEEDED). It is powered by a standard transistor-radio type 9-volt battery, comes complete with a leather carrying case and neck strap. The model 008 Wireless Microphone is unconditionally guaranteed for one year against defects in workmanship or material.

The Micro Model 008 lends itself to countless applications in the home, office or industry. Not only will it

ACTUAL SIZE INCLUDING BATTERY

produce some unexpected party laughs, but it makes an excellent wireless intercom as well as an electronic baby sitter. In the office, it can be used to monitor sales presentations and conferences or may be utilized in meetings with a P.A. system. Any "room pacer" will appreciate a wireless mike in conjunction with his dictating machine. Doctors can keep track of patients without being present . . . or a foreman can listen to sounds from machinery. It is undoubtedly safe to suggest that anyone reading this sheet will think of several uses for a Model 008 Wireless Microphone.

#### SPECIFICATIONS

**RANGE** — To approximately 1000 feet.

**FREQUENCY** — Adjustable on standard FM (88-108 MC).

**SENSITIVITY** — 10 foot radius; good fidelity.

**POWER** — Transistor-radio type battery or

equivalent; readily available everywhere.

**DIMENSIONS** —  $2\frac{3}{16} \times 2\frac{3}{4} \times \frac{7}{8}$  inches (without leather case). Case —  $2\frac{3}{8} \times 3 \times 1$  inches.

**NOTE:** This is not intended for sale in states where prohibited by law.

# MICRO MINIATURE WIRELESS TELEPHONE TRANSMITTER MODEL TT-1

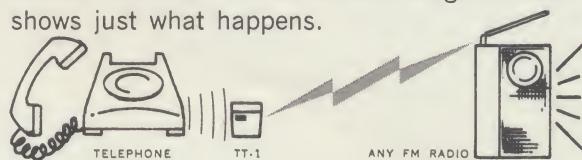

The Model TT-1 is shown here actual size, including battery. Due to the effects of perspective, the cigarette package appears at a slightly reduced scale.

## UNLIMITED USES IN BUSINESS OR PROFESSION

Unauthorized personal use of company telephones is a problem only-too-well-known to all management — a problem instantly pinpointed and brought under control by the TT-1. Sales personnel's conduct of telephone interviews can be audited, providing close supervision without disturbing the basic privacy of this form of contact. (There is no audible evidence that anyone is listening.) Unlimited uses will suggest themselves to imaginative management.

## A MAJOR BREAKTHROUGH — IT'S LEGAL\*

There are no attachments or connections of any kind to the instrument, equipment or wiring. The TT-1 is simply placed **near** your telephone, transmitting all conversations to a conveniently located receiver. The schematic diagram below shows just what happens.

## SPECIFICATIONS

**RANGE** — Approximately 100 feet with no antenna. May be considerably extended with 6 inch antenna.

**FREQUENCY** — Standard FM tunable 88 to 103 MC.

**SENSITIVITY** — Clear pickup when used within 6 inches of telephone.

\*Referring to the fact that there is no wire tapping or other tampering with telephone system equipment. The purchaser must assume all responsibility, of course, for any possible invasions of privacy, as well as compliance with all pertinent laws, local, state or federal.

**POWER** — Eveready S76 hearing aid battery or equivalent, available everywhere.

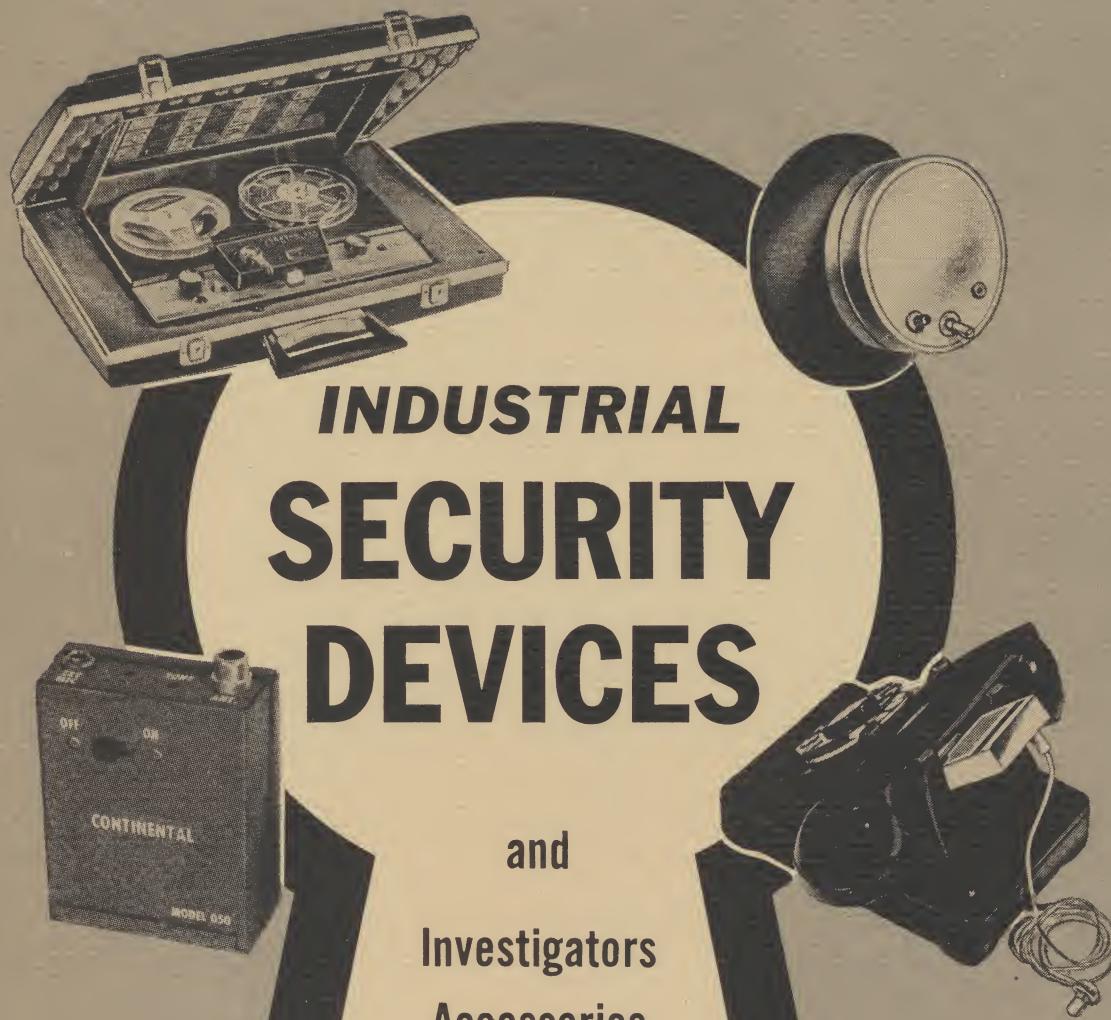

**DIMENSIONS** — 2-3/16 x 2-3/8 x 11/16 inches

**NOTE:** This is not intended for sale in states where prohibited by law.

7. TAPE (3 REELS) Allows you up to 12 hours of recording time per tape.....	\$ 14.50

These Items, If Purchased Separately, Cost..... **\$565.00**

# SECRET RECORDING DEVICES

**When You Speak, Your Attache Case Records -  
When You Stop Speaking, it Stops  
(WITHOUT YOU TOUCHING A THING!)**

World's first fully voice activated automatic security recording system; completely self-contained in a handsome inconspicuous attache case. Perfect for investigators or law enforcement officers.

The cumulative result of years of research, this device is the ultimate in precision miniature transistorized self-contained portable recording equipment.

This instrument can be left for long periods of time completely **UNATTENDED**. It will record all voices, sounds, telephone conversations, etc.; fully automatically powered by either battery or AC current. It can be placed **UNOBSERVED**, automatically starting when voices are present and automatically stopping (in 2 sec.) when there is silence; or can be activated by remote control. **NO MORE OBVIOUS FUMBLING WITH SWITCHES, ETC.**

## CONTINENTAL 4000L SECURITY RECORDING SYSTEM

This is the system preferred by the top professionals in the security field for its total dependability under the most exacting conditions.

Appearance of items may vary with improved models.  
All units sold subject to local, state & federal regulations.

- A. Latest model Uher "4,000 Report L" Hi-Fi Tape Recorder with **VU-METER & DIGITAL COUNTER, AC-DC**, 4 recording speeds, up to 16 hrs recording time ..... \$380.00

- 13. Professional Tape Accessory Kit containing tape eraser, tape splicer-editor, head cleaner ..... 24.95

### CONTINENTAL 050 FM WIRELESS TRANSMITTER

An FM Transmitter that fits into a cigarette pack or shirt pocket.

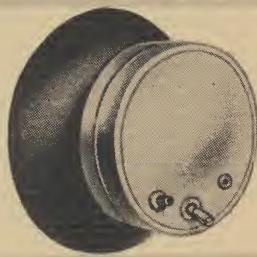

Perfect fidelity; No wires, completely transistorized. Weighs 6 oz. Battery powered. Broadcasts up to 300 feet. This sensational miniature electronic device is the ultimate in investigative instruments. Comes complete with built-in pinhead mike, accessory jack and black leather carrying case ..... \$75.00

(Add 75¢ each for batteries)

#### THE CONTINENTAL 070 FM WIRELESS TRANSMITTER

When power is needed the 070 transmits up to 1000 feet ..... \$250.00

• Can be used in conjunction with Continental's 440, 4000L

### CONTINENTAL AUDIO-WALL PROBE

A result of the latest development in high quality amplification. This amazing device is equipped with suction cup ultra-high gain amplifier you simply place against the wall and thru stethoscopic earphones you detect the voices and sounds in the next room. Ideal as an electronic baby-sitter or pick up sounds of intruders in your home or office. Can be plugged into your tape recorder. Operates on standard 9 volt battery ..... \$65.00

Earphones ..... \$9.95

• Can also be used in conjunction with Continental's 440, 4000L utilizing FM transmitter

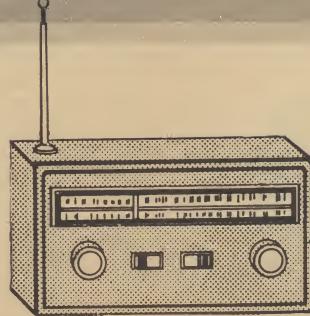

### CONTINENTAL'S LINE TRACER

A spectacular brand new telephone line tracing device which requires no direct hook-up to the line and enables monitoring and listening even on multi-line phones. The line tracer can be used as an ultra powerful telephone monitor! Complete with batteries and earphones ..... \$249.00

Cable for tape recorder hook-up ..... \$4.50

• Can be used in conjunction with Continental's 440, 4000L

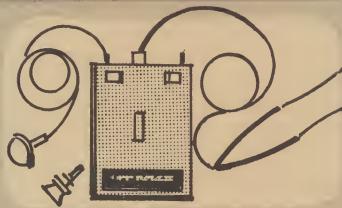

### FM RECEIVER

A high powered, specially tuned and modified FM receiver, ultra sensitive throughout the entire 88 to 108 mc band. This unit has a sturdy high impact case and comes complete with built-in telescoping antenna, leather carrying case, earphones and batteries..

\$55.00

Patch cable for direct hook-up to Continental's 340, 440, 1040 systems ..... \$4.50

• Can be used in conjunction with Continental's 050, 070, 0007, 0008, 0009

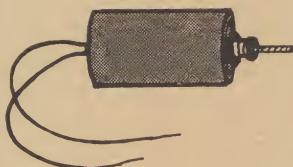

### CONTINENTAL'S AUDIO-ELECTRONIC STETHOSCOPE

The first truly revolutionary stethoscope. A completely transistorized precision instrument that amplifies several hundred times: so ultra-sensitive it can even penetrate thick plaster. Due to this enormous sensitivity, it is highly sought after by members of the investigative field as well as the medical profession. Medetron features selective tuning controls, ideal for hearing the subtlest variations of heart action; enabling doctors to make quick and accurate diagnosis. There is an auxiliary output for recording and group listening. Medetron is light-weight; fits into shirt pocket easily.... Uses 4 standard batteries lasting two months .....

\$100.00

• Can be used in conjunction with Continental's 440, 4000L

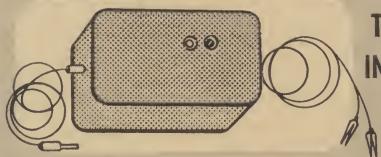

### CONTINENTAL'S 0009 TELEPHONE LINE TAP TRANSMITTER

Only slightly larger than a thimble, this highly sensitive unit will receive and send signals from any telephone line into any preset FM receiver at distances up to now unheard of in this field ... 300 to 500 feet. 0009 is self-energizing (no change of batteries) and is set to any FM frequency from 88 to 108MC\* \$179.00

\*For other frequency settings add \$25

• Can be used in conjunction with Continental's 440, 4000L, FM Receiver.

All units sold subject to local, state & federal regulations.

THE NEWEST ADVANCE  
IN RECORDING HISTORY  
**UNICON**

Your voice activated tape recorder will start the moment telephone rings and stop as soon as receiver is put down. Completely automatic — you need not be present — NO equipment visible near phone. Parties on the line cannot tell conversation is being recorded (no line loss) and recording is as clear and perfect as if you were listening on actual earpiece of phone ..... **\$69.50**

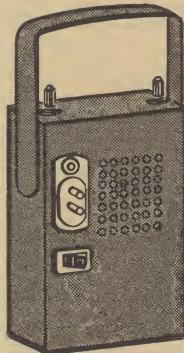

(Works with other recorders if recorder is manually operated.)

• Can be used in conjunction with Continental's 340, 440, 1040.

**CONTINENTAL'S TRANSCORDER**

This customized automatic Unicon is used with any recorder (preferably transistorized). Will record when phone rings and stop when put back on cradle. (Please state Make & Model) **\$119.50**

• Ideal for use with our Miniton

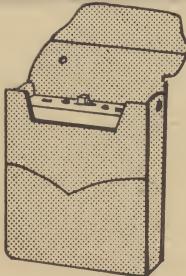

**CONTINENTAL'S  
VOICE  
ACTUATOR  
MODEL 60**

This remarkable instrument attaches to a tape recorder and transforms it into a sound activated machine. Can be used with any battery or AC operated recorder with a 'Stop-Start' mechanism.

With the voice actuator connected, your tape recorder will record the instant you speak and stop when you do: all this without your touching a thing! ..... **\$69.50**

• Can be used in conjunction with Miniton.

**CONTINENTAL'S 008  
FM WIRELESS  
TRANSMITTER**

The latest most advanced and powerful miniature transistorized wireless transmitter now available to the security surveillance field. Continental's 0007 is tuneable between 66 & 132 mc, weighs only 5 ounces and is small as a pack of cigarettes. Operates on a 9 volt battery, has a built-in mic. (also ideal for use with our other secret mics) ..... **\$150.00**

• Can be used in conjunction with FM Receiver.

**CONTINENTAL'S  
WHISPER  
LIGHT**

A beautiful decorator lamp with a built-in miniaturized electronic transmitter. Whisper Light defies detection and transmits all sounds and voices clearly (whether lamp is on or off) to a mobile receiver. Extremely effective in home or office or, from one private house to another. Requires no batteries, tubes or visible antenna and, has no wires other than the regular lamp cord ..... **\$150.00**

This unit is also available in a seemingly-innocent radio or picture frame (specify size).

• Can be used in conjunction with Continental's 440, 4000L

**CONTINENTAL  
TELEPHONE  
MONITOR**

This new telephone pick up amplifier allows you to hear two-way conversations without lifting the phone receiver. Just place Monitor against extension telephone, put plug in your ear and listen. No wires to connect — No special receiver rest. Continental's Telephone Monitor is completely portable and works with any extension phone for perfect monitoring without obvious clicks as when phone is lifted ..... **\$18.95**

**CONTINENTAL'S  
"ORDINARY"  
TELEPHONE  
with  
BUILT-IN FM  
TRANSMITTER**

For private monitoring of telephone conversations in a room, without wires. Amazing customized combination of latest type "500" dial phone with a built in FM transmitter. Hear any 2-way conversation thru an FM radio. The phone transmits to an FM receiver which broadcasts to you. This sound security system can also be plugged into tape recorder for permanent records! Permits the executive office sales staff to listen in on complete reports from the sales force in the field, both ways! . . . Check out your business trainees "in action" without making them self-conscious of your "listening in" or being in the same room.

(Max. range 150 ft.) ..... **\$250.00**

Model available for wiring externally to your phone ..... **\$100.00**

• Can be used in conjunction with our FM Receiver.

Appearance of items may vary with improved models.

# MICROPHONES

## BUTTON-HOLE MICROPHONE

A highly sensitive microphone designed to operate deceptively behind a tie in shirt button hole, replace a cufflink or use as a lapel pin.....

\$24.95

## TIE MICROPHONE

Jewel-like subminiature microphone designed to be used as a tie clip. Perfect for recording in cars or whenever hands are not free .....

\$24.95

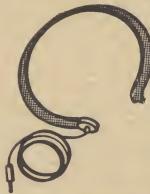

## FOUNTAIN PEN MICROPHONE

Ultra sensitive miniature microphone concealed in a dummy pen case. Impossible to tell it's a microphone even when visible .....

\$24.95

## THROAT MICROPHONE

Subminiature microphone with special adjustable, comfortable neck loop. Designed to be concealed under collar for deceptive recording .....

\$24.95

## FLAT SUB-MINIATURE MICROPHONE

Only  $\frac{3}{4}$ " x  $\frac{1}{2}$ " x  $\frac{1}{4}$ " highly sensitive ideal concealable microphone for most situations .....

\$24.95

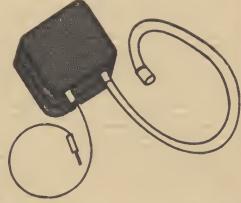

## SUGAR CUBE MICROPHONE

A compact highly sensitive, precision engineered microphone. The 'ultimate' in the subminiature field.....

\$39.95

## PIN HOLE / KEYHOLE MICROPHONE

A truly unique microphone containing an extended acoustical tube which fits into the smallest places and defies detection. It can be poked thru a door, crack, over a wall and, even unreels like a fishing line out the window .....

\$119.50

## PAPER CLIP MICROPHONE

'Small' and 'concealable' are hardly the words for this sensitive microphone! .....

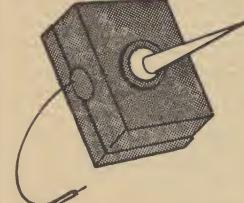

\$24.95

## WRISTWATCH MICROPHONE

A sensitive microphone embedded in a handsome, realistic watch case. Defies detection on the wrist .....

\$79.50

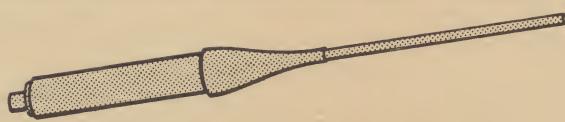

## CONTINENTAL'S SPIKE MIKE MODEL 4255

This precision high impedance instrument is a perfect compact, portable investigators device for non-permanent installation. Designed for quick, unplanned surveillance or recording . . . Insert Spike-Mike into plaster wall (i.e., behind picture) and pick up clearly, all conversation or sounds in adjoining room .....

\$79.50

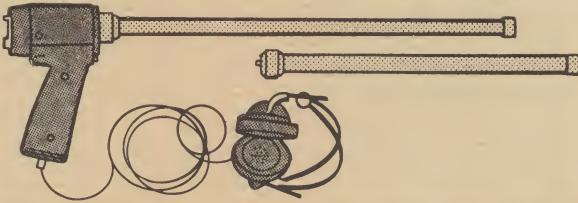

## CONTINENTAL'S PROFESSIONAL BUG

The 'ultimate' in custom made microphones . . . Manufactured specifically for permanent long standing use in just about any location . . . Especially behind plaster walls or installed in furniture; it can't be detected by normal microphone detection instruments. This 'news making' mike is now in use by most international agencies .....

\$349.50

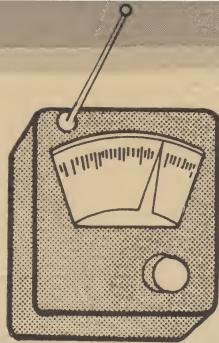

## SHOT GUN MICROPHONE

This very unique microphone in the shape of a rifle is constructed with the maximum in sensitivity, fidelity, and reliability for long distance pick up. Shot Gun Mike is actually able to pick out a group of voices in a crowded area up to several hundred feet away. Comes with two different size shot gun barrels with built-in wind screens for outdoor use. Self-powered transistorized amplifier allows monitoring thru cushioned aircraft type headphones while in use. Three output impedances. A must for the professional investigator .....

\$425.00

\*All microphones listed can be used in conjunction with Continental's 440, 4000L, 050, 070 & Minifon.

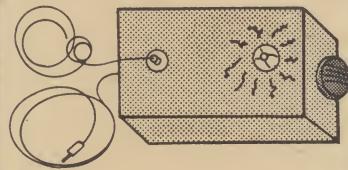

### CONTINENTAL'S DETECTO F202

This instrument is used to locate the frequency of transmission and to determine the location of any transmitter hidden on premises or concealed upon a person. This is THE unit most

frequently used by investigators for searching houses or offices for 'bugging' devices ..... \$200.00

• Can be used in conjunction with Continental's F201 or F301

### CONTINENTAL'S DETECTO F201

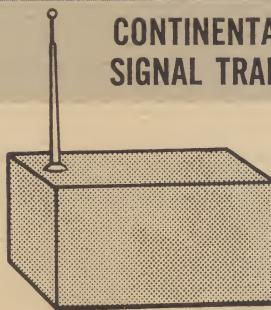

This precautionary warning instrument automatically indicates with a blinking light the presence of any transmitters, whether 'planted' or surreptitiously carried by a person. Its

small inconspicuous size enables it to be mounted atop your office entrance door or on your desk. Operates on 110 volt AC and is precision built to insure maximum security ..... \$250.00

### CONTINENTAL'S DETECTO F301

Identical to Model F201 except that this unit is battery operated \$350.00

### CONTINENTAL'S 991A SIGNAL TRANSMITTER

991A attaches under the dashboard and uses the automobile's 12 volt current to transmit a steady signal through the auto's antenna, indicating the position of that automobile to a tracking

unit (tailing investigator). 991A Signal Transmitter is used in conjunction with Continental's 990 Cyclops Eye ..... \$375.00

### CONTINENTAL'S 991B SIGNAL TRANSMITTER

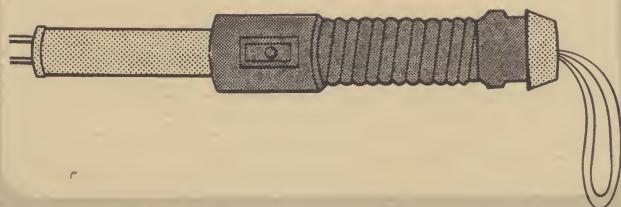

991B operates on the same principles as 991A but is completely self-contained (battery operated). Comes equipped with powerful magnet so it may be quickly placed on gas tank or transmission or any other metal part of the automobile to be tailed. 991B Signal Transmitter is used in conjunction with Continental's 990 Cyclops Eye ..... \$375.00

### CONTINENTAL'S PEN SCRAMBLER

This unique device protects you against audio surveillance by generating radio frequency noise which interferes and thwarts any attempt to 'bug' by use of a transmitter. Deceptively concealed in a regular pen case but will positively jam the signal of any transmitter ..... \$250.00

### CONTINENTAL'S SECURITY SHOCK ROD

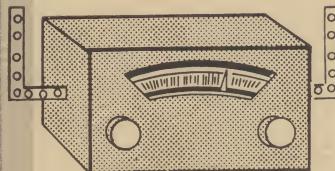

The ideal device for discouraging prospective muggers, intruders or any other potentially dangerous individuals. Compact and light weight, operates on standard flashlight batteries. A 'must' item for cars, homes, offices or stores. This timely protector delivers a temporarily disabling electrical shock, affording you time to get help or escape ..... \$9.95

### CONTINENTAL'S TEAR GAS SPRAY

This miniature spray can, delivers 80 to 100 shots of a temporarily blinding tear gas. Fits into pocket or purse and has a special locking device on the can to prevent accidental discharge of contents. The tear gas spray is always ready for instant action and is a perfect deterrent for any would be assailants ..... \$9.95

### CONTINENTAL'S 990 CYCLOPS EYE

The cyclops eye is a receiver custom designed for use in automobiles. 990 mounts under any dashboard and is used for following moving vehicles, indicating when they turn right or left. Also used for locating vehicles. A must for investigative work. Cyclops Eye is used in conjunction with Continental's 991A or 991B ..... \$375.00

Appearance of items may vary with improved models.  
All units sold subject to local, state & federal regulations.

# MINIFON Model L

Minifon L is a top quality, precision engineered, small metal encased wire recorder. Ideal for dictation or security work where recorder mobility or concealment is required, (with pistol type shoulder holster). Minifon is designed to use many specialized microphones (see microphone page) and to operate with a host of special attachments such as the Transcorder and Voice Actuator. Comes complete with 30-minute recording wire, dynamic record/playback microphone, earphones and batteries ..... \$269.50

#### OPTIONAL ACCESSORIES:

a) Nylon shoulder holster .....	\$ 8.95
b) Loudspeaker and microphone combination .....	\$89.95
c) Additional recording wire: 90 min. ....	\$16.95
120 min. ....	\$22.45
180 min. ....	\$26.00
240 min. ....	\$39.75
d) Batteries .....	\$ 3.95
e) AC power supply .....	\$29.95
f) Pre-Amp with 16 ft. interconnecting cable .....	\$79.50
g) Extension cable (16 ft. with plug for pre-amp) .....	\$ 8.45

\* Minifon can be used in conjunction with Continental's Voice Actuator, Transcorder or Microphones.

All items in this catalog may be subject to local, state, federal regulations. Equipment used on telephone company property may be subject to local tariffs. Appearance of items may vary with improved models.
